DISCLAIMER

This Whitepaper is intended to provide potential Women Empowerment Coin (WEC) token holders with crucial information in order for them to thoroughly analyze the WEC project and make informed decisions. This whitepaper does not obligate anybody to sign a contract or make a legally forceable commitment to contribute. This Whitepaper also does not constitute any form or part of any opinion that can be construed as advice, or that can be used to sell or solicit any offer to purchase WEC tokens, nor shall it be construed as a part of any effect that can be used in the formation of a contract or an investment decision.

Kindly ensure that you undertake sufficient risk assessment when trading cryptocurrencies as they are often subject to high price volatility. The information provided in this Whitepaper doesn't represent any investment advice or WEC's official position. WEC reserves the right in its sole discretion to amend or change this Whitepaper at any time and for any reasons without prior notice.

Cryptocurrency is a type of digital currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double-spend. Cryptocurrency is created, stored and transferred electronically in the blockchain using encryption techniques. Cryptocurrency has no physical form and it exists in only digital form. Its supply is not determined by a central bank and the network is completely decentralized.

In the span of a few years, cryptocurrencies have grown from digital novelties to trillion-dollar technologies with the potential to disrupt the global financial system. Cryptocurrency is leading to the development of an alternative financial and technological infrastructure that is global, open source, and accessible to all who have access to the internet, regardless of nationality, ethnicity, race, gender, and socioeconomic class. It has the potential to help people escape poverty through financial inclusion by providing easy access to useful and affordable financial products and services such as payments, savings, credit, and insurance.

Many governments initially took a hands-off approach to cryptocurrencies, but their rapid ascent and evolution, coupled with the increased interests among general public, has forced regulators to begin crafting rules for the emerging sector. Considering cryptocurrency as the potential tool for financial inclusion and its popularity and increasing adoption, Women Empowerment Coin (WEC) is created to empower women through financial inclusion.

Women Empowerment Coin – A cryptocurrency for every women!

WEC is the first-of-its-kind community-driven utility based social cause token built on Binance Smart Chain (BEP-20). It is an initiative of International Foundation for Women Empowerment and Entrepreneurship (IFWEE), a Non-Profit and Non-Government organization. WEC aims to empower women globally through financial inclusion by leveraging the benefits of cryptocurrencies.

**Women
Empowering
Women**

In the recent years, cryptocurrencies have evolved as the potential tool to help people escape poverty through financial inclusion by providing easy access to useful and affordable financial products and services such as payments, savings, credit, and insurance. To leverage the benefits of cryptocurrencies and ensure financial independence for every women, WEC was launched on July 30, 2021.

By the women, for the women!

The team behind WEC are not just women who are passionate and committed to to empower women. They are experts with experience in Blockchain Technologies, Financial Services, Entrepreneurship Development, Marketing, Sales and Business Development.

Women Empowerment Coin (WEC) – For the women. By the women!

The primary objective of WEC is to build a blockchain-based financial ecosystem that is global, open source, and accessible to all who have access to the internet, regardless of nationality, ethnicity, race, gender, and socioeconomic class. This ecosystem or fintech platform should empower women and help them escape poverty by providing easy access to useful and affordable financial products and services such as payments, savings, credit, business loans, and insurance.

VISION

We envision a world in which all women, regardless of nationality, ethnicity, race, or socioeconomic class are treated, respected and allowed to participate and contribute in the development of families, communities and economies as equal to men.

MISSION

To empower women through financial inclusion by creating a sustainable, completely decentralized and utility focused cryptocurrency ecosystem providing easy access to useful and affordable financial products and services such as payments, savings, credit, insurance, seed fund, etc.

VALUES

WEC is built on the following core values:

1. Inclusiveness
2. Transparency
3. Trust
4. Empowerment
5. Positive Impact

Gender equality is a basic human right, and it is also fundamental to having a peaceful, prosperous world. But girls and women continue to face significant challenges all around the world. They are underrepresented and underappreciated in almost all the walks of life. They often have fewer or limited opportunities for economic participation than men, less access to basic and higher education, greater health and safety risks, and less political representation. While some progress is being made in various parts of the world, there is still a great deal left to be done to address the problems of gender inequality.

We believe that financial inclusion is one of the key enablers to create a level playing field for women. Being financially included can have transformative effects for women. When women actively participate in the financial system, they can contribute more to the well-being and development of their families, societies and national economies. Empowering women through financial inclusion can set a direct path towards gender equality, poverty eradication and inclusive economic growth.

The WEC community works towards building a blockchain-based financial ecosystem that helps connect women worldwide and provide them with the resources and opportunities for literacy, education, skill training, entrepreneurship development, startup fund and charity. Thus, helping alleviate and empower women globally through financial inclusion.

Secured by Liquidity Lock

By locking the liquidity for 5 years, and conducting a full audit of the smart contract code, WEC shall provide its holders with the peace of mind in knowing that there will not be any type of rug-pull, or fraudulent activity.

Automatic Liquidity Providing

The liquidity pool is an integral part of decentralized finance; that is why we decided to redistribute 2% of every transaction into our locked liquidity pool. As a result, the price will become more stable as time goes on. Thus, more significant transactions can occur without a high price impact, benefitting everybody involved.

Earn by Holding WEC Token

You can earn passive income by holding WEC tokens in your decentralized wallet. For every WEC transaction by any user, a reflection of 2% is given as an instant reward to all the WEC Token holders, proportional to the amount of tokens they are currently holding. That means you earn more WEC tokens just by holding it.

Fully Doxxed Team

In line with our core values of transparency, the WEC team is fully doxxed and you can check us out on social media channels – LinkedIn and Telegram. In us you can trust.

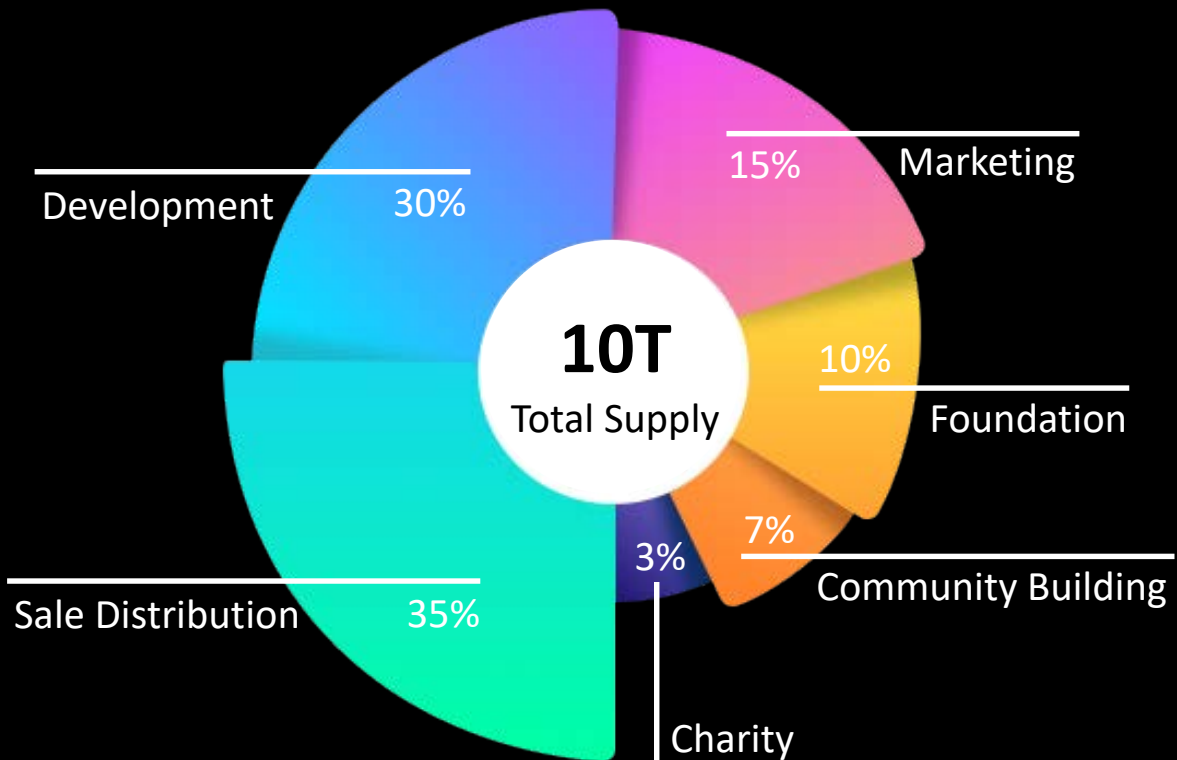

Community-Driven

WEC is decentralized and driven by its vibrant, supportive and diverse community of women. In line with our core values of inclusiveness, our governing team of WEC welcomes and embraces women from different walks of life regardless of their nationality, religion, social and economic status to join our revolutionary ecosystem

Token Information

Token Name	Women Empowerment Coin

Transaction Fee	10% (2% - Holders; 4% Liquidity Pool; 4% Marketing)
Contract Address	0xdB9A19B861C03a2FffbA4D6C25C3073c7ec5C5Cc

Token Distribution

Women Empowerment Coin (WEC) provides women with options to explore unlimited opportunities and endless possibilities, so that they can be financially independent even while they are staying at home and taking care of their families. We are creating an ecosystem where women are empowered to capture equal opportunities and build resilience through a sustainable, completely decentralized and utility focused cryptocurrency, that is aimed at global women empowerment.

NFT MARKETPLACE

We are bringing one of the largest Marketplace for women to display their creative talent and monetize it in the form of NFTs, Games, Metaverse and much more.

LAUNCHPAD

Our Launchpad will provide a complete suite of tools and service offerings starting from advisory services to the best issue and final launch of a crypto project.

DEX

We will be bringing a fast, secure and robust decentralized exchange for trading or swapping digital and crypto assets, along with farming, staking and wallet service.

ACADEMY

Our online academy will facilitate the women to enhance their personal and professional growth with the help of expert-led online video tutorials and live workshops.

INCUBATION

We will be providing upcoming entrepreneurs and founders of new crypto startups with all the required resources and mentoring they need in their journey from idea to exit.

DEBIT & GIFT CARDS

With WEC Debit and Gift Cards, users will be able to load the fiat balances with bank transfer, buy, send or gift cryptocurrencies.

PHASE 1

- Smart contract deployment
- Basic smart contract audit
- Creating social media presence
- Taking the website live
- Private and Pre-Sale of WEC token
- Collaborations with other entities
- Community Building
- Launching WEC on Pancake Swap
- Locking the Liquidity
- Doing Promotion/Marketing activities

PHASE 2

- Listing on Coingheko & CoinMarketCap
- Thorough Smart Contract Audit
- Development of Launchpad
- Development of NFT Marketplace
- Development of Decentralized Exchange
- Development of Wallet Services
- Development of DEX and Launchpad tools
- Development of Online Academy
- Setting up an Incubation Lab
- Complete Platform testing and Beta Launch

PHASE 3

- Taking the launchpad live
- Launching DEX and wallet services
- Conducting ICOs and IDOs on launchpad
- Incubating Startups
- Offering virtual Debit & Gift Cards
- Adding more functionalities to DEX
- Strategic Partnerships
- Launching Institutional Services
- Venturing into Games & Metaverse
- Expanding the Ecosystem

We are a decentralized community!
